Project Zapotec

Partners: Maatschap Bartelen Agro BV, Oud Gastel

In project [Zapotec](#), Solynta collaborates with [Maatschap Bartelen Agro BV](#), an innovative family company, on developing a cultivation system for a potato crop grown from hybrid true potato seeds. The goal of the project is to develop a method to produce seed-tubers from seed on a commercial scale. The project runs 2017 to end 2021 and is supported by the POP3 Brabant programme.
